

ESTABLISHED in 2011, Helping with Horsepower founder Laura Klock launched the nationally recognized Motorcycle Rebuild Program for at-risk youth. In 2015, Crystal Young of Reclamation-Ranch teamed up with Laura to start the **Helping with Horsepower Therapeutic Riding Program** for children and adults with special needs. The focus of the therapeutic riding program is to assist individuals with achieving their goals and full potential through interactions with horses.

WHY GIVE? In-kind, monetary, advocacy, rider or horse sponsorship, or donations of time all benefit those we serve through Helping with Horsepower! Your gifts help make a difference in the lives of many individuals, both young and old, within Mitchell and surrounding areas! With your help, we shift an Impossible mindset to I'm possible! Our programs continue to improve the lives of all involved and we can only continue to do so with your help and support.

The **MISSION** of Helping with Horsepower™ is to design and implement programs that empower, encourage, and inspire. By building a community of individuals born or diagnosed with limitations, we create opportunities for purpose, wellbeing and growth.

True to our HWH MISSION, in 2019 the **Heroes Helping with Horsepower** program was born! This program focuses on assisting Veterans through equine therapies!
